MEMORANDUM FOR THE NSC PLANNING BOARD

SUBJECT: U. S. Government Overseas Installations
(Other Than Military Bases)

REFERENCES: A. Memo for NSC, July 27, 1960,
and references therein
B. NSC Action No. 1876-c
C. Planning Board Record of Meeting for
August 9, 1960, item 6-d

The Planning Board at its meeting on August 6, 1960, in connection with its discussion of a Department of Defense report on U. S. Overseas Military Bases, agreed that it would be useful to have information regarding other types of U. S. Government overseas installations and that the appropriate agencies should be requested to provide such information. Accordingly, it is requested that all Planning Board agencies which have such installations, including the Department of Commerce and the National Aeronautics and Space Administration, provide information on those installations for the information of the Planning Board.

Information is desired on those overseas installations which involve the negotiation of special agreements or understandings; which may result in future political problems; and/or installations for which the U. S. now provides, or is likely in the future to be required to provide, a quid pro quo. The information supplied should, accordingly, indicate the time period covered by any agreements involved; present or prospective political problems, if any; and any payments or other considerations provided to the country concerned as a quid pro quo for the particular facility.
